

CHAMP PATIENT SURVEY

UNDERSTANDING THE MIGRAINE JOURNEY

HEALTHCARE EXPERIENCE

The focus of brief #3 is on respondents' experiences with the healthcare professional (HCP) primarily responsible for their headache care, barriers to accessing an HCP, visits with headache specialists, emergency medical care and hospitalizations, and insurance barriers.

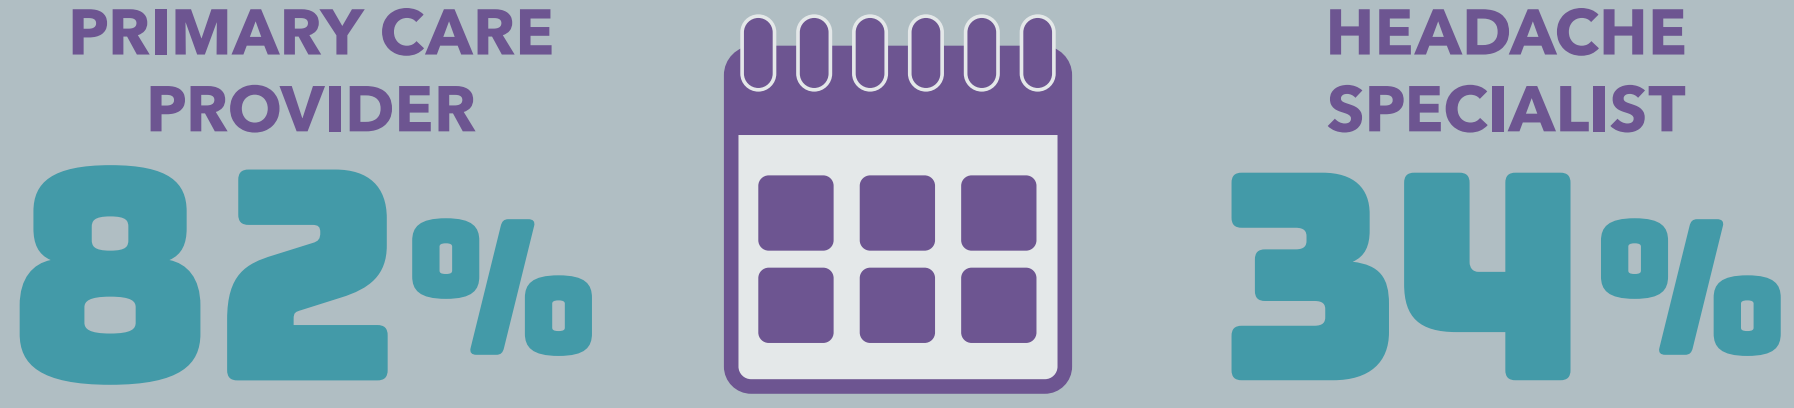

FINDINGS ARE DERIVED FROM A SUBSET OF 1,770 SURVEY RESPONDENTS WHO SELF-REPORTED RECEIVING A MEDICAL DIAGNOSIS OF MIGRAINE FROM A HEALTHCARE PROFESSIONAL.
